

MENTOR SYSTEM

Mentor system is a professional relationship under which a lecturer (mentor) is assigned to act as advisor, counselor, or guide in developing specific skills and knowledge of the students (mentee). It is an interaction process that provides opportunities for the mentors and mentees to experience share and learn from each other's gifts and talents. It is believed that students have much to learn and gain insight from associations with mature prudent and prominent people in the community. The mentor-mentee relationships will have a profound influence on the student's personal growth, career development and even life values.

Objectives:

1. To maintain complete profile of the students.
2. To enhance students educational, social and personal growth through learning from the experience of mentors.
3. To maintain close link between the college and its alumni.
4. To identify the specific skills, talents and knowledge of the students.
5. To maintain the achievement records of the students.

Conveners

Sl.No.	Academic year	Name of the Convener
1	2013-14	Prof.Balrajegowda
2	2014-15	Prof.T.Yashoda
