

## HEALTH COMMITTEE

The main purpose of the health and safety committee is to promote safety awareness and practice through the college. We act as a clearing house for campus safety concerns and also we provide assistance and support in the ongoing implementation of the committee. We encourage fellow employees and students to follow the established safety procedure. The committee also monitors, advice and support the overall environmental health and safety program and strive to reduce the accidents through identification of potential hazards that could cause accidents, making recommendation for correction.

Activities:

Once in every semester a lady doctor visits the college for health inspection and also consults the students. The students will be having general medical checkup every year by the lady doctor and also a useful speech will be given by the doctor to create health awareness and consciousness among the students.

Sl.No	Year	Doctor Visited	Hospital
1.	2012-13	Dr.Umadevi Dr.Vishalakshi Dr.Girija	Jayachamarajendra Govt. Hospital, Hassan
